Subject: EXIDE TECHNOLOGIES - Timeline of 2013 Actions | Senator Kevin deLeon

Kathleen -- State Sen. Kevin deLeon has a really great section of his website devoted to Exide (the link is attached below). It provides a complete timeline of all state regulatory actions taken over the past year as well as the major bankruptcy developments. He actually has links to key documents, including the June 2013 Superior Court Order. I'll print out a copy of the Order for you and bring it up to you to save time. It is not a lengthy decision. I'll also print the DTSC Order shutting down Exide (specifically, suspending its interim status under RCRA) that was appealed to the Superior Court.

I've also the Air District's website link to Exide matters, including the recent petition for an Order for Abatement.

I also have a call in to Margarita Padilla (California A.G.'s Office) and am scheduled to speak with Alan Tenenbaum (DOJ) at 9:30 to see if I can get a more current update on the status of the bankruptcy.
